further to establish the good repute of Holloways's Pilis and Ointment.

A. Mr. Thomas Clark, a settler at Currawang, Luke George, was for a considerable time seriously afflicted with a complaint of his liver, together with the gravel. His medical attendants, after trying all their skill for a considerable time, candidly gave their opinion that his case was hopeless, and declined any further effort as useless. In this situation, and when expecting every day would terminae his earthly career, a friend providentally called on him, and in the course of conversation enquired if he had ever tried Holloway's Pilis, which he assured him had cured a friend of his similarly situated; he replied that he had not; being persuaded todoso, as a forloth hope, he caused his eldest son there and them to saddle a horse and proceed to Goulburn to purchase the medicine—on taking which he immediately found great relief, and in persevering in taking them he became completely cured, and is now perfectly restored to health, which he will feel pleasure in testifying to any person who may think proper to call on him.

This is part of his testimony given himself. BOILING DOWN.
